

FOR IMMEDIATE RELEASE: October 14, 2015

Stay Fully Charged at The Texas Mile

The Texas Mile is now an Official Dealer for Wearable Power- Go Puck

HOUSTON, TEXAS— The Texas Mile announced today they are now an official dealer for the wearable power solution, Go Puck. Go Pros and cell phones have advanced the way racers shoot video and stream live social media at The Texas Mile racing event; however, keeping the technology charged in the rural location has proven difficult at times.

Go Puck provides a hands free, portable solution to keeping batteries fully charged, including the capability to be mounted to a Go Pro camera or roll cage. With the battery capacity to charge a cell phone multiple times a day, Go Puck is the smart, quick solution to charging your batteries twice as fast as a wall outlet. The device has two USB outlets, super lightweight and features a rugged design- shock and vibration resistant.

Purchase your own Go Puck 5X Wearable Power device at the Merchandise tent at the upcoming October 23-25, 2015 Texas Mile event in Beeville, Texas. The Go Puck 5X will be available for \$79.99.

About The Texas Mile

The Texas Mile is a 1-Mile drag racing event started in October 2003 by J&S Matus Motorsports, Inc. For the past 12 years, participants have travelled from all edges of the United States, Canada, and Mexico to test themselves and push for their fastest speeds on the most challenging 1-mile track in the world. The bi-annual motorsports festival was created for the performance enthusiasts and welcomes motorcycles, performance street cars, race cars and land speed racers.
