

FOR IMMEDIATE RELEASE:

Excessive Speed Required

The Texas Mile, Where The Fast Go Faster and Records are Set - April 1-3, 2016

BEEVILLE, TX— The world famous Texas Mile, thunders once again at Chase Field Industrial Complex in Beeville, Texas on April 1-3, 2016. Over 250 racers will pilot exotic supercars, radical American muscle, European sports cars, screaming motorcycles, concept racecars, and a fast truck or two. No Speed Limit, No Speeding Tickets, and 1-mile of pure excitement, set the stage for amateurs and professional racers alike, with a strong common bond, the need for maximum speed! The Texas Mile, “Is what it is,” pure and simple; an all-out run from 0 to most a machine will give.

Texas Mile fans can proudly say, “The fastest car in Texas, is faster than any other.” Houston-area based M2K Motorsports, recorded 278.2 MPH, in their highly modified 2006 Ford GT, which is the current Texas Mile top-speed record has held by them since October of 2013. Even though M2K’s Ford GT is the undisputed, “King of Speed,” they are never satisfied with yesterday’s best, and will return this April 1-3. After months of planning, they are convinced, “This is the time,” and 278 MPH will be a thing of the past. Recently, a few ½-mile superstars have run well over 220 MPH, and feel confident in challenging MK2’s Ford GT, which ran 215.1 at the ½ mile mark on their record one-mile run. It remains to be seen if one of these new upstarts can run the full mile and upset a Texas horsepower hero. Spectators are in for an exciting weekend of top-speed battles.

Other exciting news comes from Snappy Racing out of the Dallas area, who will attempt to reset a record they currently own, “Worlds Fastest 5th Generation Camaro.” Even though Snappy Racing has built a new 2500 horsepower Camaro that should be ready for competition in October 2016, they are ready for all challengers with their familiar inferno orange convertible, and more power than ever before. Don’t miss this racing team attempt to break their own record and show competitors why they’re still the champs. Get up close and personal with drivers and crews to see under the hood of these wild rides and what makes them go so fast. A Texas Mile pass gets you in the pits to see all cars, crews, and drivers. Texas Mile participants are among the friendliest in motorsports, and spectators enjoy bringing the entire family. Spaces for campers are available for the weekend, and provide a front row seat to the most exciting 1-mile event in this country has to offer.

Do The Mile with style, and rent a golf cart to cover this amazing event from end to end, while enjoying an experience like no other, with onsite amenities including delicious food from local vendors, cool racing merchandise for all ages, and a luxury shaded club area located for viewing the action. All this with one pass, there’s no additional ticket charge to enjoy VIP treatment. Hotels, motels, RV parks, and a few hometown Bed and Breakfast locations around the Beeville area are welcoming racers and fans to South Texas for a day or an extended weekend.

Don’t let an incredible opportunity pass you, your family, and friends by. Come see some of the most exotic supercars and unbelievable racecars from all over the planet blast down a 1-Mile stretch of asphalt at astounding speeds. See the newest cars off the show room floor like Mustangs, Camaros, Cadillacs, Corvettes, Challengers, and Chargers, with drivers determined to “Run ‘em like they stole ‘em!” Check out our website at www.texasmile.net for a look at what’s to come. Find us on Facebook, Instagram, or Twitter, to keep up with all the excitement before, during and after the event.
